Innovation Discovery Resources

Below is a complete "do it yourself" kit that labs can use to increase their number of invention disclosures, improve existing disclosures in order to develop more commercially valuable patents, or identify promising commercialization opportunities for existing patents.

Included are the Innovation Discovery Handbook, videos introducing the process and providing guidance to lab S&Es who will be presenting at an Innovation Discovery event, comprehensive checklists for planning an event, a sample agenda, a sample non-disclosure agreement for the panel members, a PowerPoint template for use by lab S&Es, a suggested room layout for the event, and a sample attendee evaluation form.

INNOVATION DISCOVERY EVENT

INSTRUCTIONS

As part of the Innovation Discovery event, the innovator(s) will explain their innovation to the panel. The innovator presentation will be about 15 minutes, followed by a 15 minute Q&A session during which the panel will seek to fully understand your invention.

The following is a basic template to help you prepare for the Innovation Discovery event. Your goal is to give the panel a basic understanding of your innovation, without getting bogged down in too much technical

Problem Statement

(Very briefly, without using jargon, describe the problem that you set out to solve)

- What technical problem(s) did you address?
- How had the problem been addressed previously?
- What were the key technical challenges?

Problem Solution

(Describe your solution, helping the panel to visualize this innovation with pictures, models, or prototypes)

- How did you solve the problem?
- What was your final solution?
- How is your solution superior to the existing alternatives (its features and benefits)?

Uniqueness

(Help the panel understand what is new, different, and useful about your innovation)

- What is unique and different about your approach to the problem?
- What technology/methods/materials have you used in a new and different way?
- How is your solution superior in terms of attributes such as performance, speed, size, weight, cost, and convenience?

Commercial Applications

(Help the panel understand potential applications for your innovation, beyond the specific military use)

- What new technical opportunities does your solution open up?
- Who, outside of the military, would/should be interested in your solution?
- What industries could make use of your innovation?

Electro-Magnetic Fire Suppression

Bill Leach

Key Benefits

- Unlimited capability
- Simple, COTS components
- Scalable
- Can be automated for near instantaneous response
- Doesn't require putting humans in harm's way
- Clean/green system

Features/IP Considerations

- Energized wire mesh generating an EM field
- Applications: Fire extinguishment, fire suppression, optimization*, fire influence/control
- "Always on" system to stop fires before they can start
- Sources: DC, AC, combo, directed energy
- Fixed and mobile systems

Applications (*'s indicate key applications as identified by individual panelists)

- Wildfire Fighting
 - Backfire system
- Weaponry
 - Explosive enhancement
- Sheet Flame
 - Annealing and curing
 - Flooring, wallboard
- Sensors
 - Response of flames to sense O2 in area
- Pyrotechnics
 - Directionality and safety
 - Concerts, stage shows, aerial displays
 - Additional effects
 - Color
 - Novelty lighters/candles
- Power Generation
 - Fuel bed reactors

Key
Benefits

IP Features

Applications

- Plasma Control
 - Catalytic reactions
 - Plasma projectors
 - Separating materials refinery processes
 - Gas separation
 - Corona suppression around high voltage equipment
- Personal Protective Gear
 - Suit and helmet
 - NASCAR, fire fighters
- Obscurants
 - Direction
 - Color?
 - Obscurant defeat

- Industrial**
 - Enhanced heating and burner efficiency*
 - Power generation
 - Melting, kilns
 - Uniformity for baking, annealing, curing* (Ore, wallboard)
 - Welding*
 - Tunable quality
- Grid Shape
 - Improved efficiency (suppression or enhancement) given the g
 - Direct toward companion systems (e.g. [balon](#))

- Freight
 - Fire control
- Food Industry
 - Drying
- Fire Suppression
 - Bus undercarriages
 - Clean rooms
 - Hospitals
- Fire Education
 - Demonstrations
- Engines
 - Combustion enhancement
 - Efficiency optimization
 - Adaptability to fuels and fuel quality
- Crowd Control

Naval Air Systems Command/Aircraft Division/Lakehurst

Innovation Discovery Event ~ May 21st 2015

I wanted to take this opportunity to provide you with detailed information regarding our upcoming Inaugural INNOVATION DISCOVERY EVENT (IDE) at Naval Air Systems Command (NAVAIR) Lakehurst and extend our sincerest appreciation for your taking the time and energy for participating as a **PANEL MEMBER**. The purpose of the IDE is to identify possible commercial applications and opportunities related to the technologies presented by our innovators. **PAGE 2** details the **AGENDA** for the event.

EVENT DATE/TIME: Thursday, May 21st, 8:30am-4:00pm (plan on arriving at the main entrance by 8:00 to check-in with the front gate guard and then proceed to building 678 - see map on **PAGE 3** & GPS links to get you here.

MEALS: Morning coffee and light fare, lunch and afternoon refreshments will be provided.

WHAT I NEED FROM YOU NOW:

- 1) Reconfirmation of your planned attendance (send me an email). I do realize that last minute, urgent circumstances may occur that would prohibit you from attending, so please let me know if something has come up, at your earliest convenience.
- 2) The event will be unclassified. US Government proprietary information will be discussed. Panel members **MUST** sign a **VISITORS CONFIDENTIALITY AGREEMENT** prior to the event. Go to **PAGE 4** and fill in the **ORANGE UNDERLINED AREAS** then sign, scan & email back to me (Gaetan.mangano@navy.mil) or bring to Event.
WITHOUT A SIGNED AGREEMENT, NON-DoD PERSONNEL WILL NOT BE ALLOWED TO PARTICIPATE
- 3) Lunch Selection (Create your own Chipotles Burrito or Choose from the other alternatives). Go to **PAGE 5** and fill out what you want and send back to me.
- 4) To get you on base, I'll need your Full Name (Last, First & Middle), State of Driver's License & Driver's License Number or Date of Birth. Go to **PAGE 5** and list this information. **PROVIDING THIS INFORMATION WILL ALLOW YOU TO GET ON BASE WITHOUT HAVING TO GO INTO OUR PASS OFFICE AND HAVE AN ESCORT**

PLEASE CONTACT GAETAN MANGANO AT GAETAN.MANGANO@NAVY.MIL OR 732-323-2899 WITH ANY QUESTIONS.
ON THE DAY OF THE EVENT CALL MY CELL AT 571-332-4766 IF YOU NEED TO REACH ME.

VISITOR CONFIDENTIALITY AGREEMENT

This Agreement is effective on May 21st 2015, between:

Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey (hereinafter "NAWCAD"), and
Enter First & Last Name (hereinafter "INDIVIDUAL").

NAWCAD has certain business and technical proprietary information relating to the design, development, and manufacture of equipment, systems, and processes in support of Naval Aviation, Naval Warfare and other endeavors of the United States government (hereinafter "Subject Area") and maintains a number of facilities in the United States (hereinafter "PREMISES") and INDIVIDUAL, by his or her presence on the PREMISES or participation in any meeting on the PREMISES, may become aware of such information, and INDIVIDUAL is willing to enter the PREMISES in accordance with the following terms and conditions.

NOW, THEREFORE, the parties agree as follows:

1. "Confidential Information" is defined as any confidential or proprietary information that is rightfully possessed by NAWCAD, relates to the Subject Area, and is seen by, heard by, or in any way disclosed to or accessed by INDIVIDUAL while on the PREMISES.
2. Unless otherwise expressly authorized by NAWCAD in writing, INDIVIDUAL agrees to hold in confidence, not to disclose to any third party, and not use for any purpose, the Confidential Information of NAWCAD.
3. Notwithstanding any other provisions of this Agreement, Confidential Information shall not include any information that is or becomes publicly known through no wrongful act on INDIVIDUAL's part or is explicitly approved for release by written authorization of NAWCAD.
4. INDIVIDUAL acknowledges that breach of this Agreement could cause irreparable hardship to NAWCAD. Accordingly, in the event of a threatened breach by INDIVIDUAL, or any of their Representatives, NAWCAD shall be entitled to injunctive relief without the necessity of proving actual damages and without the necessity of posting a bond or making any undertaking in connection therewith. NAWCAD shall also be entitled to compensatory damages at law resulting from an actual breach, which damages will include, but not be limited to, any benefits resulting from such actual breach received by INDIVIDUAL, as well as losses incurred by NAWCAD.
5. No modification or amendment to this Agreement shall be effective unless made in writing and signed by duly authorized representatives of the parties.
6. The effective date of this Agreement shall be the date first written above. The obligations under Paragraph 2 hereof shall survive expiration or termination of this agreement.
9. This Agreement shall be governed by the Federal laws without giving regard to choice of law provisions of any jurisdiction.

Mom always said there would be days like this where no one on the panel would be listening to one another

“...you expect us to believe you broke the 3 minute mile...come on, you can do better than that. How many times do I have to tell you to prepare for this part of the event!

Silvia deep in thought, wondering just how long the Phillies will be basement dwellers in the National League East Division

“...I can’t eat that Burrito!

Now let’s get to T2 Work!

“...I can’t believe I’m able to sleep standing up and with my hands on the keyboard!”

“...if you guys don’t shape up, I’m shipping you out. I’ve never seen a panel with such horrendous ideas. What rock are you living under?”
